

SUMMARY

- Computer Science graduate with strong foundations in Java, C sharp, and Object-Oriented Programming, and hands-on experience in software development using C sharp with Unity Framework. Experienced in working in Agile environments, contributing to sprint planning, daily stand-ups, and team coordination, including serving as a Scrum Master. Able to build and optimize real-world applications under tight deadlines while collaborating effectively in teams.

WORK EXPERIENCE

- **UI / Tools Programmer, Immersive Arts Studio.** Jan-June 2026
 - **Developed interaction systems in Unity using C Sharp** integrating features and functionality through callbacks.
 - Participated in **Agile development processes**, including daily stand-ups and sprint planning, acted as Scrum Master, facilitating team coordination, and ensuring timely delivery.
 - **Implemented UI Toolkit solutions** using UXML and USS, connected UI components to backend systems, and documented workflows while helping team members onboarding with UI Toolkit development.
 - **Designed and implemented internal tools** to improve team productivity, development workflows.
 - **Debugged and optimized application performance**, improving responsiveness and user experience.

PROJECTS

- **Game – The Union Against Tuberculosis** Sept-Dec 2025
 - **Built interactive systems in Unity using C Sharp** for a real-world application.
 - Participated in the **Implementation of user interaction features using event-driven logic**.
 - Used yarn spinner for narrative progression of the application
 - Collaborated in a team of 4 under defined **Agile sprint cycles**.
 - Focused on **usability, and performance optimization**
 - **Developed a custom internal tool** to streamline workflows and reduce manual effort.
- **Secure Image Steganography – Academic Project** Nov 2024 - Mar 2025
 - **Designed a secure steganography system** to embed encrypted messages within images.
 - Participated in the **Implementation of Elliptic Curve Cryptography (ECC)** for encryption and secure key exchange.
 - **Applied data compression techniques** to optimize storage within images.
 - **Developed a Flask-based web interface** for encoding and decoding workflows.
 - **Integrated LSB-based image processing** for invisible data hiding and retrieval.

TECHNICAL SKILLS

- **Languages:** Java, C Sharp.
- **Core Concepts:** Object-Oriented Programming, Data Structures and Algorithms(basics), API, Problem Solving, Debugging, Performance Optimization, SDLC, Agile methodologies.
- **Tools:** Git, GitHub, Unity Engine, Unreal Engine, PostMan, Bitbucket, Jira, Confluence, Bitrix24.
- **Database:** Mysql

CERTIFICATIONS

- **Programming in Java Certified by IIT Kharagpur (NPTEL)**
- **CyberSecurity (SkillDzire)**

EDUCATION

Bachelor of Technology Computer Science - CyberSecurity Raghu Engineering College 2021–2025

ACHIEVEMENTS

- Selected for **Microsoft Xbox Game Camp Asia** (Top Teams in Asia).
- Secured **2nd place in IITK and IGDC Game Jam** (48-hour development challenge).
